VIRTUAL.ED

A virtual bond between school, parent & child...

www.virtual.ed.in

**A complete platform for SCHOOL.
Diminish work for TEACHER.
Monitors STUDENT and
STAFF activity.**

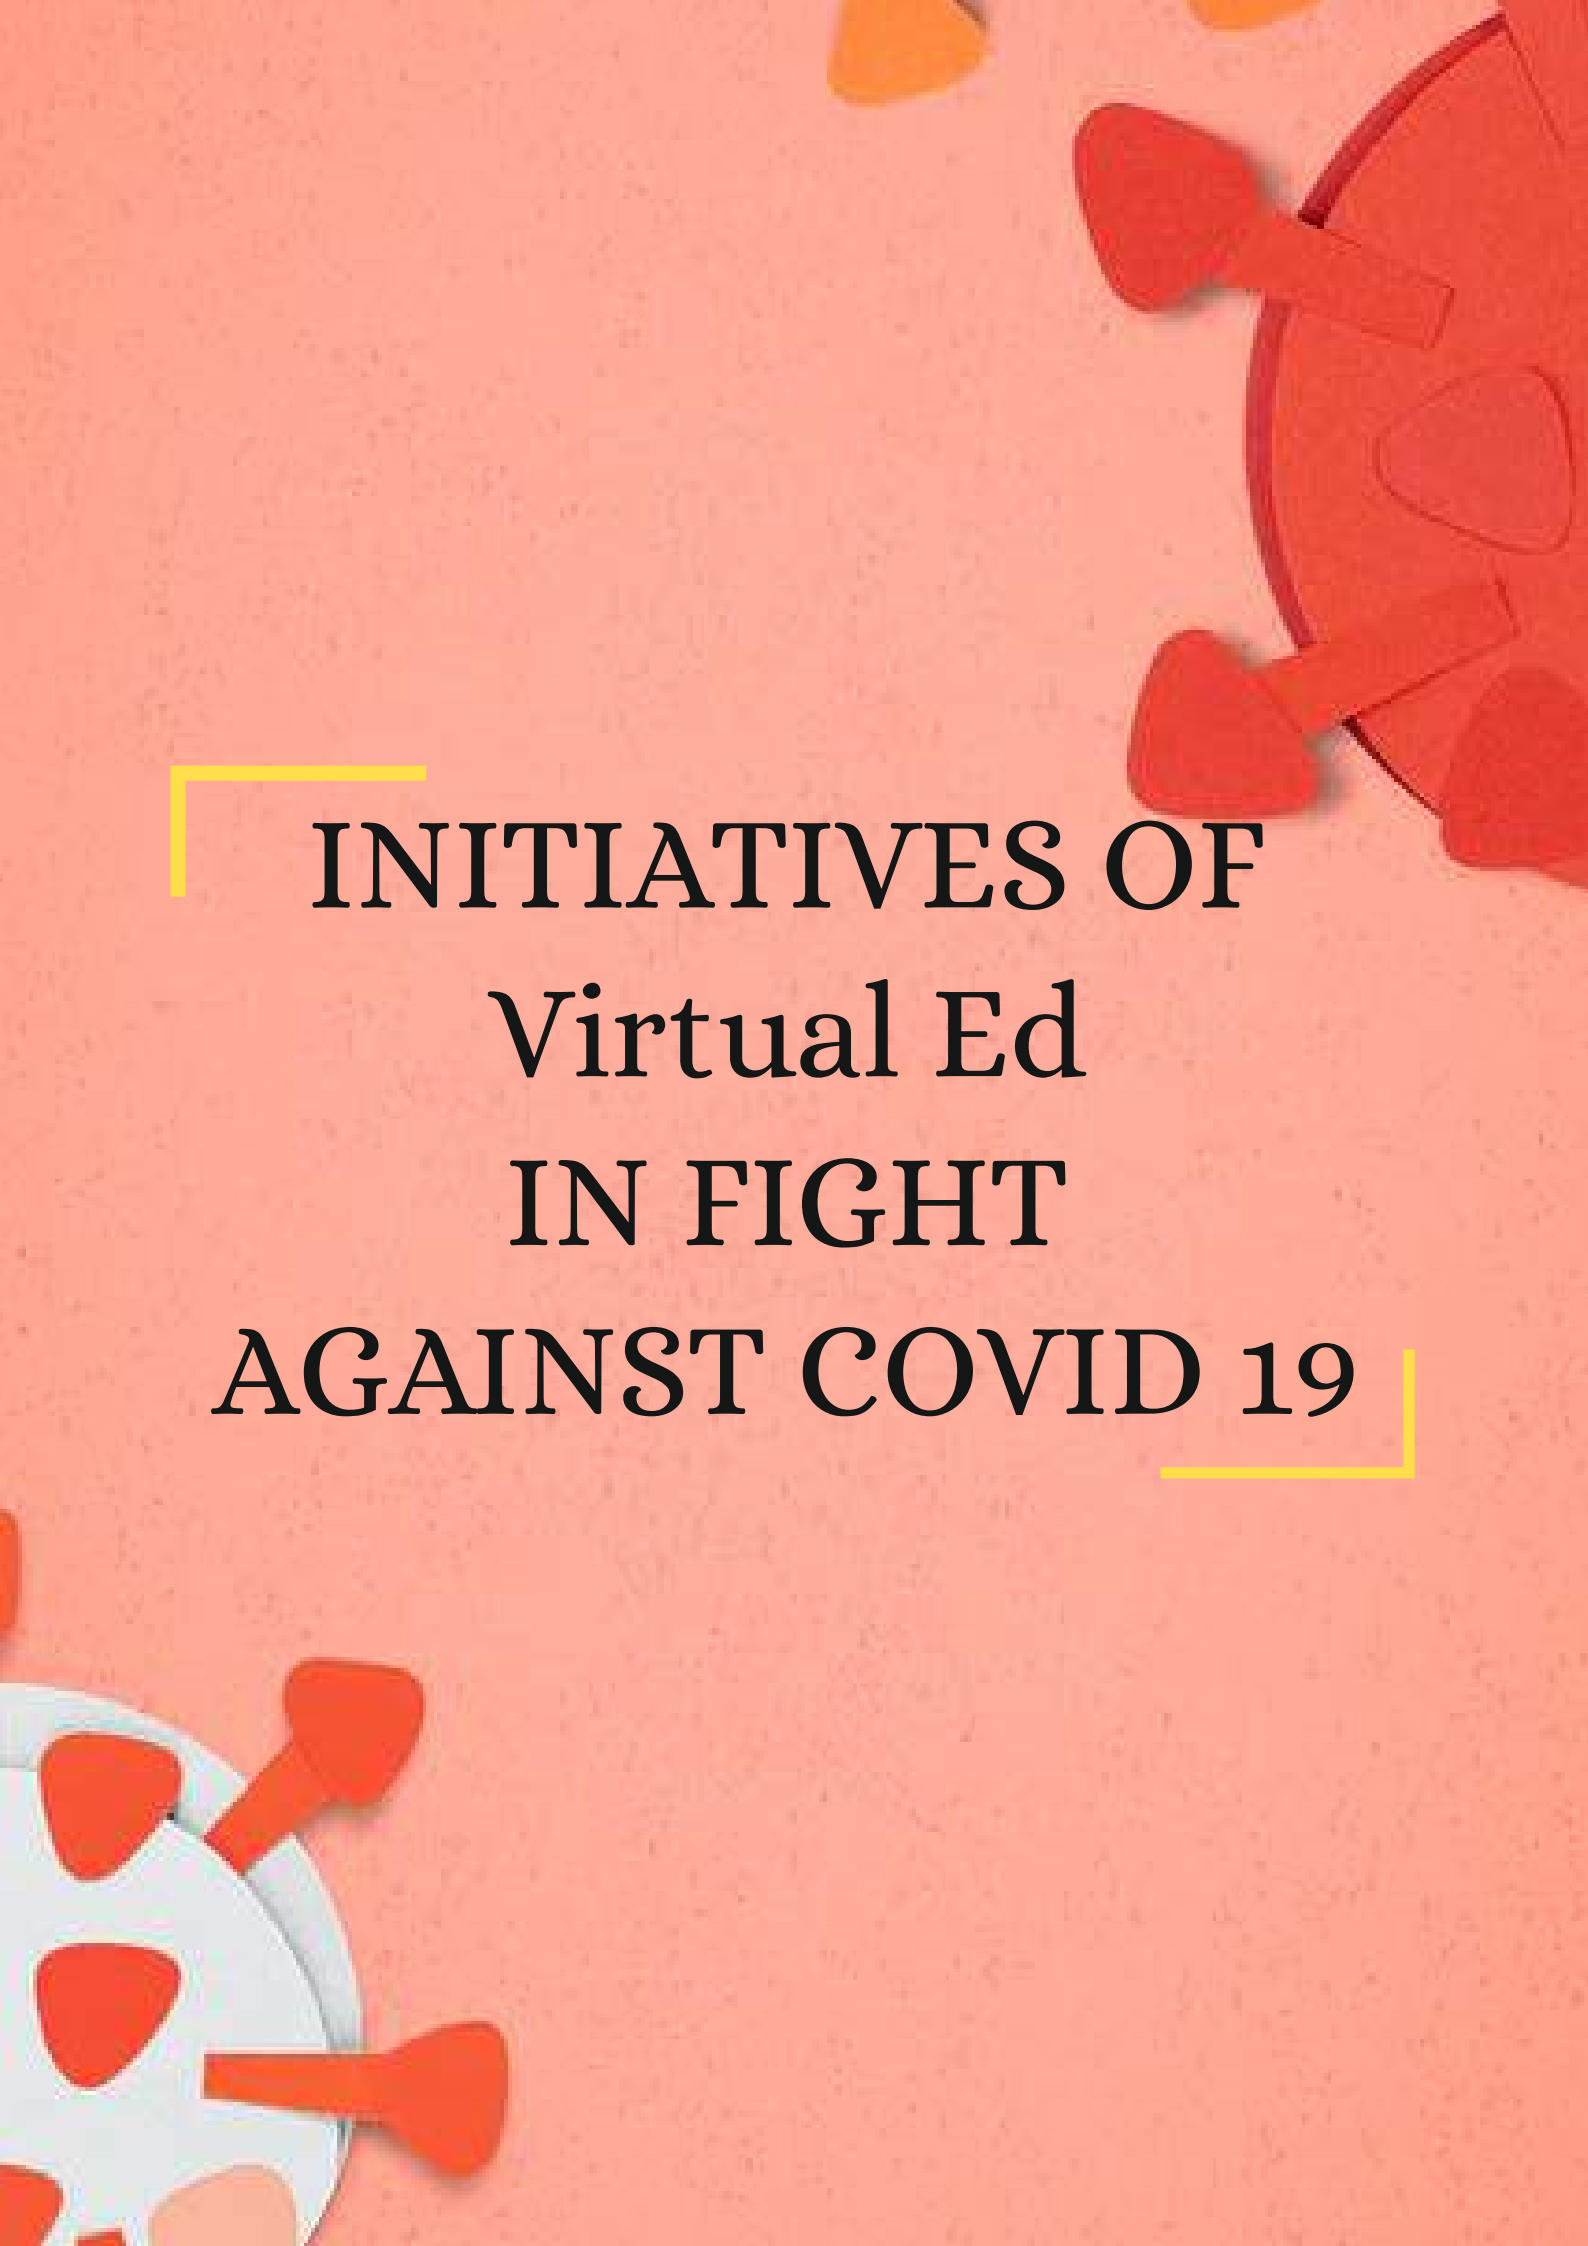

About us

Virtual.Ed is a comprehensive Campus Management System for all educational institutes. Virtual.Ed app is a powerfull online community that brings an educational institute's management, parents, teachers and students on one common interactive platform.

The system is a cloud based solution along with mobile platform, providing a completely automated experience with all backend administration and data management activities of the institution.

Software for Educational Organizations Management, design and development by a class of technical and management professsionals after continuous research and consultation with various Education Experts and School Administrators.

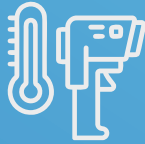

The background is a solid light orange color. In the top right corner, there is a large, stylized red virus particle with several red, teardrop-shaped spikes. In the bottom left corner, there is a smaller, stylized light blue virus particle with red, teardrop-shaped spikes. The text is centered and framed by yellow L-shaped brackets on the top left and bottom right.

INITIATIVES OF Virtual Ed IN FIGHT AGAINST COVID 19

Student face Recognition & Temperature Check

In this Covid-19 pandemic situation, we are privilege to introduce our Artificial Intelligence based solution for education institutions.

In this Covid-19 pandemic situation, we are privilege to introduce our Artificial Intelligence based solution for education institutions.

Face recognition will be mandatory for each and every staff and students at the entrance of the school.

Teachers can monitor every student with their attendance and temperature on live time basis.

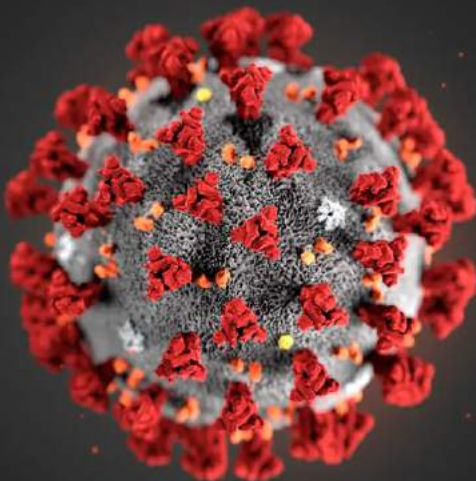

There will be centralized system to check temperature of every staff and faculty, including principal, higher management etc.

Identification of every individual (Students or School Management) for temperature check and Distance maintaining, at the entrance of gate via Thermal Based Artificial Intelligence.

Automatic alarms will be raised if temperature is not adequate. (Student, Staff, faculty).

VIRTUAL CLASSROOM AND VIRTUAL EDUCATION

Virtual Classroom And Virtual Education

- Teachers can conduct live lectures with Preschedule Intimations Reminder will be sent automatically to all students as per Desired notifications Example: Notification can be sent 1 day Prior , 30 Minutes prior and 5 minutes before starting of the lecture.
- Teachers can schedule online classes timetable for weekly/Monthly basis ,this will help other subjects 'Teachers to prepare their timetable and avoid any class or overlaps as per their open time slots and then notification can be sent to the students
