PROGRESS AND PERFORMANCE PROFILE

NNLP2

Session 2023-2024

Unit 3

Name: Aditya Patil Class: NNLP 2 Group: A

Explanatory Note for Progress and Performance Profile

Dear Parents,

It gives me immense pleasure to share the Progress Profile of your child with you. It would give you a comprehensive summary of his/her learning progress and development. It highlights the strengths and areas for improvement and helps in charting the child's learning curve

However, I admit that I experience a certain degree of trepidation in doing so, which is largely due to the reason that sometimes parents use this assessment to compare their child's performance with that of other children in the peer group. Let me take the opportunity to point out that every child deserves to be assessed on their individual merit. Just like no two flowers are alike in the garden, no two children are the same either. Each child is a blossoming bud with its own special fragrance. It is our responsibility, as facilitators and parents, to provide them the environment they need to achieve their fullest potential.

Let me reiterate that this report is merely meant as part of communication between school and home in terms of the child's ongoing learning process and should be considered as such. Let us make a collaborative effort to ensure that our children grow and mature into well-adjusted and successful individuals.

I congratulate you and your child on completing the Unit and look forward to sharing their future success.

Sincerely,

Principal
