My Experience At High School

I liked to tell jokes when I entered high school. I was very lazy for the first three years. My class teacher was angry with me all the time because he didn't like my jokes. In particular, he always told me, "You are not only a lousy joker, but you are also a lazy student." I didn't care about what he said, but I decided to change my behaviour. I became more studious and did my work in time. Everybody was satisfied with my new behaviour.

In the fourth year I became vice-president of my class. I was proud because my classmates voted for me. As a result of their trust, I worked very hard for my class. That year we wanted to go on a trip. At the end of the school year we did not have enough money raised, so we decided to keep it instead.

In the fifth and sixth year I was elected president of my class. My classmates and I participated in many activities. In two years we earned a lot of money. Before we graduated, we went on a trip to the Annapurna Base Camp. We enjoyed it and we became very good friends.

I learned to be constant in my goals. I was never affected by the words of my class teacher. Instead I always believed in myself. I had enough strength to face the challenges in my high school life. Now, I have a big challenge- that is to attend A-Level. However, my first challenge is to get good grades in this semester and learn English very well.

Travelling

People travel for many different reasons. Some travel for business, some for pleasure and some for educational purposes. We travel to places by car, by train, by boat, by air and even on foot.

In earlier days, people travelled on foot or on horseback. Animal-drawn carts were also used for going to places. Today, travelling has become much easier. We can go to any place in a short time and without any difficulty.

There are many advantages of travelling. Travelling helps us to know more about the things about which we did not know. It is a wonderful experience to visit places of interest and natural beauty. Travel broadens our mind and takes away the monotony of everyday life. That is why travel is very much a part of our education. When we travel, we get to learn about the places that we visit. We also know about the people and their cultures and traditions. Visiting historical places help us to learn about history.

The more we travel, the more we learn about the world we live in. It is said that travelling helps a man to discover himself. Today travelling is easier and much more comfortable but it is not cheap. So many people can't afford to travel and their dream to visit different places is limited to dream only.
