

KALPAVRUKSHA MODEL SCHOOL

Online Class Assignment-6

Class: VIII

Sub: Biology

Date: 17.08.2021

Topic: Crop production and management

I. Answer the following questions:

1. What is harvesting?
2. What precautions should be taken while storing harvested grains?
3. Why should the harvested grains be protected from moisture?
4. Why is it important for granaries to be clean and dry?
5. Describe how nitrogen gets fixed in nature.

II. Read the lesson “Crop production and management” from the textbook. Write Let’s Remember (page no 20) from this lesson.
