A Note from our KG Teacher

Dear Parents,

Greetings !! "Kindergarten is a place where dreams are nurtured and future stars are born". In kindergarten, every day is an adventure waiting to be explored and children can develop skill in managing themselves and their emotions. It also prepare them for first grade. Kindergarten develops basic skills and social behavior through games, exercises, music and simple handicrafts.

Being a kindergarten teacher I gained valuable experience by working with kids. Kindergarten teachers are the foundation of each and every student in life. I love kids and I love my profession.

Dear parents it's a request not to compare your child with any child. Each child is unique, they will learn in their own pace. "Every child is a different kind of flower and all together make this world a beautiful garden".

Thank You
