## A Note from our KG Teacher

**Dear Parents,**

My love for teaching children is what makes me an able kindergarten teacher. I love to watch these young minds grow and treasure their learning experience for the future.

Teaching is all about nurturing young minds. I encourage true freedom of expression, mutual respect and a sense of responsibility in all my students. I observe that with the advent of digital classes due to the current situation, the students are missing outdoor activities. To develop their social skills I encourage and motivate students by conducting different outdoor activities.

**Thank You**

## PARENTS TESTIMONIALS / FEEDBACK:

### PARENTS TESTIMONIALS/FEEDBACK:

Mrs. Kalyani Anand Kabbin (Parents of Ananya A. Kabbin (Nursery Omega))

I am very happy to see my daughter Anany's learning journey. She is trying to speak in English. She recognises and name the vegetables, fruits and all other objects in English. Ananya is participating in all the activities without any hesitation, which makes me very happy. The different activities and teaching techniques in school has given opportunity to Ananya to develop the skills. I like to convey my gratitude towards KMS faculty.

Thank You.
