Dear Parents and Students,

Greetings from Dr. Sidhant Danigond Central School Terdal Family!!!

Science is inexplicably linked with our lives and helps us to understand the world around us better. Scientific and Technological developments contribute to progress and help to improve our standards of living. It thus becomes imperative to encourage our students to think, learn, solve problems and make informed decisions to develop interest in enquiry based learning. Our school is organizing a Science Exhibition on **July 30, 2022** between 10.00 a.m. to 1.00 p.m. for students from classes 1st to 10th. Children are intimated to make science projects as per the given theme. We welcome the students who have interesting ideas and desire to be the participants. Interested students can give their names to their respective class teachers by **July 23, 2022**.

Students are required to participate in large numbers.

The Rules for the Science Exhibition.

- Project should be cost effective.
- It should be the brain of the child. Without the help of the Parent.

The evaluation of the projects will be done on the following criterion.

- i. Innovation
- ii. Cost Effective
- iii. Utility
- iv. Presentation
- v. Explanation

NOTE:

- Explanation should not exceed a time limit of 2 min.
- The projects will be evaluated by external subject experts.
- The three projects will be selected from each class.

SCIENCE EXHIBITION THEME FOR GRADE 1 & 2

ENVIRONMENT

The environment is also known as an ecosystem, it has plants, animals, and microorganisms together with all of the non-living

Here you can make models on ecosystems

- plants
- animals
- non-living things

SCIENCE EXHIBITION THEME FOR GRADE 3, 4 & 5

SWACHH BHARAT/CLEANLINESS

How you can keep your city clean, what equipment you can use, how can you bring new technology that reduces the efforts.

What are the benefits out of cleanliness drives? You can showcase all these things while during the project for the exhibition

SCIENCE EXHIBITION THEME FOR GRADE 6 & 7

HEALTH INNOVATIONS

You can make the models on the latest health innovations happening in the world

For example,

- **Virtual reality** is the new health innovation where patient need not travel to hospital for treatment, using Virtual Reality allows the patients to get the treatment just sitting at home
- IoT devices
- Medicines

SCIENCE EXHIBITION THEME FOR GRADE 8, 9 & 10

SCIENCE AND THE HOME

Science & Technology for Society.

Students can make the working models to solve the simple problems in day to day life with the help of Science & Technology.

Parent–Teacher Connect

. PARENT–TEACHER MEETINGS (PTMS)

DATE: 30/07/2022

TIME: 10.00 A.M. TO 1.00 P.M.

This is to notify all the parents that Pre Mid Term Examination 2022 result will be announced on **July 30, 2022 (Saturday)** from 10.00 a.m. to 1.00 p.m.

Every parent nurtures the dream of all-round development of his/her child. Parent–Teacher Meetings (PTMs) play a crucial role in the achievement of this goal. Regular interactions and discussions between parents and teachers strengthen the bond between the child, parent, and the teacher. PTMs provide a friendly atmosphere for the progress of the child’s personality, where the teachers and the parents acknowledge the child’s aptitude and achievements. Such positive interactions yield rich dividends.

The school organizes Open House PTMs on Saturday (30/07/2022) for better interaction between parents and teachers. Parents must attend PTMs regularly for a better and closer rapport with the school system and teachers, and to thoroughly scrutinize the academic performance of their child. Parents must ensure regularity, punctuality, and active participation of the child in school activities.

Regards,

Principal
