

I was instructed that there would be 20 questions (1 mark each) for Online Test. But as I logged in, to my surprise there were only 10 questions (1 mark for each) I scrolled down as to confirm the rest of the question but I couldn't get them.

Once I was done with the test, I searched for the result eagerly. And I came to know that I was given out 20.

So I hereby warmly request you to look into the matter and clarify my doubts.
