WORKSHEET

: 1

1. About a hundred years ago, whenever an operation was performed, the patient would cry out in agony because he felt the surgeon cut his flesh. But now serious operations are performed without pain, and thousands of lives are saved. James Simpson was the first to discover and use the pain-killing power of **chloroform**. James was born into a poor family. So in his childhood, he not only helped his father on holidays but also helped the village doctor.

But he was horrified by the dire suffering of the people who came to the hospital for treatment. He now made it his life's mission to find new inventions that would prevent so much pain. Simpson did many experiments and finally discovered chloroform. Now the patient is not afraid of the operation.

Questions and Answers

- (a) Who discovered the pain-killing power of chloroform?
- (b) What was James Simpson's childhood like?
- (c) What motivated James Simpson to find new inventions to prevent the pain?
- (d) What did James Simpson finally discover?
- (e) How did the discovery of chloroform impact surgery?
