

Suresh Angadi Education Foundation's

# Angadi International School

(Affiliated CBSE, New Delhi)  
(2025-26)

**Grade: IV**

**Subject: SOCIAL STUDIES (Practice Worksheet)**

**09/08/25**

## Instructions for Students:

Before solving the worksheet, kindly read the lessons carefully — this is very important. This worksheet is given for **extra practice**, so make full use of it.

- Based on **Lesson No. 5, 6, and 7**.
- Solve on **ruled paper**.
- Draw proper **margins** and write in **good handwriting**.
- Fix a **time and place** for solving it without disturbance.
- **Submission date:** 19/08/25 (Tuesday) – **Compulsory**.

## I. Assertion – Reason question

**Read the given statements. Write**

- a. If both (A) and (R) are true and (R) is the correct explanation of (A)
- b. If both (A) and (R) are true but (R) is not the correct explanation of (A)

1. **Assertion (A):** The Southern Plateau is also called a tableland.  
**Reason (R):** It is surrounded by water on all sides.
2. **Assertion (A):** The Andaman and Nicobar Islands are in the Bay of Bengal.  
**Reason (R):** These islands are part of India.
3. **Assertion (A):** The Southern Plateau has rich mineral deposits.  
**Reason (R):** This region has many mountains and rivers.
4. **Assertion (A):** India has different types of climate in different places.  
**Reason (R):** India is a small country.
5. **Assertion (A):** Coastal areas have moderate climate.  
**Reason (R):** The sea keeps the temperature from becoming too hot or too cold.
6. **Assertion (A):** In deserts, days are very hot and nights are cold.  
**Reason (R):** Deserts get little or no rainfall.
7. **Assertion (A):** Alluvial soil is very fertile.  
**Reason (R):** It is made from fine silt brought by rivers.
8. **Assertion (A):** Black soil is good for growing cotton.  
**Reason (R):** It can hold moisture for a long time.
9. **Assertion (A):** Red soil is rich in iron.  
**Reason (R):** It is red because of the presence of iron.

## **II. Define the following**

- |               |                 |
|---------------|-----------------|
| 1) Lava rocks | 5) Mining       |
| 2) Humus      | 6) Waterfall    |
| 3) Drought    | 7) Soil         |
| 4) Fertility  | 8) Soil erosion |

## **III. Answer these questions**

- 1) Why is soil formation a very slow process?
- 2) Why is laterite soil found in areas that receive heavy rainfall?
- 3) What are monsoon winds? When do they blow?
- 4) Which states in India receive the highest and the lowest rainfall?
- 5) Write the names of two elements that affect the climate.
- 6) Which hill ranges surround the Deccan plateau?
- 7) Write the name of two national parks in Madhya Pradesh.

## **IV. Give reasons.**

- 1) Alluvial soil is found along river banks.
- 2) Coir making is an important industry in Lakshadweep.
