

**A. Add. First regroup two numbers to make ten.**

$$1. \quad 5 + 4 + 6 = 15$$

$$4. \quad 2 + 3 + 8 = 13$$

$$2. \quad 5 + 3 + 5 = 13$$

$$5. \quad 7 + 2 + 8 = 17$$

$$3. \quad 3 + 7 + 6 = 16$$

$$6. \quad 4 + 4 + 6 = 14$$

**B. Add to double.**

$$1. \quad 1 + 1 = 2$$

$$2. \quad 5 + 5 = 10$$

$$3. \quad 9 + 9 = 18$$

$$4. \quad 3 + 3 = 6$$

$$5. \quad 6 + 6 = 12$$

$$6. \quad 2 + 2 = 4$$

$$7. \quad 7 + 7 = 14$$

$$8. \quad 4 + 4 = 8$$

Doubling means adding the same number twice.
