

Subtracting 1

When we subtract 1 from any number

We get the before number

examples:

$$4 - 1 = 3$$
$$7 - 1 = 6$$

Subtracting 0 (zero).

When we subtract 0 from any number

We get the same number

examples =

$$5 - 0 = 5$$
$$8 - 0 = 8$$

Subtracting same number

When we subtract a number from itself

We get 0

ex

exercice 50

$$6 - 1 = \boxed{5}$$

$$3 - 1 = \boxed{2}$$

$$4 - 0 = \boxed{4}$$

$$7 - 0 = \boxed{7}$$

$$2 - 2 = \boxed{0}$$

$$9 - 9 = \boxed{0}$$

50
