Dear Parents,

As your children have moved to Class One, below are a few points you might find helpful in preparing them for a full day at school.

1. **Snacks and Lunch:** Train your children to open and close the tiffin/lunch box and instruct them about what is for the snack break and which box is for the lunch break, in case you decide to send both boxes with them in the morning. Give or send a lunch box that they are able to handle on their own at this stage. Restrict the quantity, to what your children can eat comfortably. Perhaps, a dry lunch pack or something less complicated would be advisable. Hence, avoid four course meals like rice, curry, pickle, vegetables etc! Remember, the children must be able to eat on their own and you will not be permitted to sit with them during the lunch break.
2. Teach your child to tie his/her shoe laces and to button his shirt, etc. As the session begins with the monsoon, you could also teach them to put on their raincoats, which they will, no doubt, be excited to wear. Umbrellas are not permitted. Students will wear black sandals during the monsoon.
Please note that Crocs are not allowed in school.
3. **Vehicles:** With the intention of decongesting the traffic on the road leading to the school, private 4-wheelers will not be permitted in the school. You may park your vehicle in the church compound and accompany your child to school. Transport vehicles will be permitted to enter from the Manickpur gate, but must exit from the Barampur gate. Vehicles are not allowed on the school ground.

Thank you for your cooperation.

Yours sincerely,

Br. Dr. Thomas Vaz, S.J.
Principal
