

Reverse No

```
const number = 12345;
```

```
let reversedNumber = 0;
```

```
while (number > 0) {  
    const digit = number % 10;  
    reversedNumber = reversedNumber * 10 + digit;  
    number = Math.floor(number / 10);  
}
```

```
console.log(Original Number: ${number});
```

```
console.log(Reversed Number: ${reversedNumber});
```
